## HOW OLD ARE YOU BY YOUR HAIR

You may be thirty in years, but if  
you are baldheaded or gray, people  
will surely take you to be many years  
older.

Dandruff is the root of most hair  
evils. If it were not for the little de-  
structive germs working with a per-  
sistency worthy of a better cause there  
would be but little baldness, and less  
people prematurely gray.

Parian Sage will help you to keep  
young looking and attractive.

It is guaranteed by William L.  
Gokay, to make hair grow and stop  
falling hair; to remove every bit of  
dandruff; to stop itching of the scalp  
almost instantly.

Parian Sage is one of the most in-  
vigorating, satisfying, and pleasant

Parian Sage is one of the most in-  
vigorating, satisfying, and pleasant  
hair dressing made; it makes the hair  
soft, luxuriant and handsome; it is  
especially praised by women who love  
beautiful soft and lustrous hair. Par-  
ian Sage is sold by druggists every-  
where, and a large bottle never costs  
more than 50 cents.

### Funny Errors in Advertisements.

Laughable errors in illustrated ad-  
vertisements are often apparent to the  
thinking man. It makes one wonder  
why the designers of the ads don't get  
their information first hand from some  
one who really knows. Accuracy, even  
in advertisements, has the same at-  
traction it has anywhere else.

For instance, when the seltzer bottle  
in an electrical sign on Broadway is  
filling the empty glass the level de-  
scends as fast in the bottle as it rises  
in the glass, yet the bottle is five times  
as big. It couldn't possibly be accord-  
ing to physics.

Still worse is a picture of a piano  
with a pair of hands striking certain  
keys. Fortunately it is indeed that  
piano can't sound, for the particular  
keys struck would be a jangling dis-  
cord. Why couldn't the artist have  
gone to a musician for a pleasing  
chord among the infinite offerings of  
music?—Wall Street Journal.

### Odd Numbers.

A hen is always given an odd num-  
ber of eggs to be hatched. Why? There  
is no reason at all except superstition.

Salutes from warships, forts, etc., are  
always given in odd numbers, yet no  
valley reason can be adduced. It is a  
remnant of the old "odd numbers are  
lucky" superstition.

Verni records all sorts of charms and  
spells practiced round odd numbers—  
never even ones. Seven is the favorite  
Biblical number, and old diviners taught  
that it held a mystical perfection. It  
is an odd number.

Falstaff, in the "Merry Wives," is en-  
trapped for the third time. He him-  
self said, "They say there is a divinity  
in odd numbers," because of the old  
belief in odd numbers.

Physicians of other days always in-  
sisted that "bleedings" should be in  
odd numbers—one, three, five, etc., and  
never an even one.—London Mail.

### Genuinely Dry.

Antofagasta, a seaport of Chile, on  
Morena bay, a great shipper of metal  
ores, borax and nitrate, is obliged to  
pipe its drinking water several hun-  
dred miles from the Andes. The city  
is one of the driest spots in the world,  
though a deep water port. Beyond it  
lies the great Atacama desert.—Argo-  
naut.

### Word From Br'er Williams.

Did you ever stop to think dat if  
all de time lost in growin' at de  
world God made wuz spent in hittin'  
hard ticks ter make things better how  
much like yo' dream o' heaven de  
name old world would be?—Atlanta  
Constitution.
